## Name

unlogremws — unlog remwsgwyd from remws web service

## Synopsis

`unlogremws` [*OPTIONS*]

## DESCRIPTION

The unlogremws eiffel application unlogs the remwsgwyd service from REMWS web service.

## OPTIONS

`*-t`

Uses the testing web service instead of the production one, default value: production server.

## REMARKS

`unlogremws` reads *last\_token* file written by `remwsgwyd` to get the token necessary to unlog from REMWS.

## EXAMPLE

```
unlogremws
```

Does it.

## AUTHOR

`unlogremws` was originally written by Luca Paganotti <luca.paganotti@gmail.com [mailto:luca.paganotti@gmail.com]>.
